

Idea for Hunted Publicity

Take a photo of a local street. Make it black and white.

Lay the Hunted overlay over the top of it, so it looks like the children are running along your local street.

Add your city's name if you want to, or your youth group logo. Save it.

If you want to go the extra mile, go to <https://photomosh.com/>. Click JITTER on the right side and save that. That will make it look like the photo is moving, just like on the C4 TV programme.

With thanks to Jack Percey.
